CONTENTS OF VOLUME 423

April 1990

BONGIOVANNI L.G. & HAGBARTH K.-E. Tonic vibration reflexes elicited during fatigue from maximal voluntary contractions in man. 1

BONGIOVANNI L.G., HAGBARTH K.-E. & STJERNBERG L. Prolonged muscle vibration reducing motor output in maximal voluntary contractions in man. 15

TAKAHASHI Tomoyuki Membrane currents in visually identified motoneurones of neonatal rat spinal cord. 27

TAKAHASHI Tomoyuki Inward rectification in neonatal rat spinal motoneurones. 47

TAKAHASHI Tomoyuki & BERGER Albert J. Direct excitation of rat spinal motoneurones by serotonin. 63

SPENCER P.M. & WHEAL H.V. Synaptic inhibition in the rat hippocampus *in vivo* following stimulation of the substantia nigra and ventral tegmentum. 77

NICHOLS C.G. & LEDERER W.J. The regulation of ATP-sensitive K^+ channel activity in intact and permeabilized rat ventricular myocytes. 91

HODGKISS J.P. & KELLY J.S. An intracellular study of grafted and *in situ* preoptic area neurones in brain slices from normal and hypogonadal mice. 111

MOORE Jane & APPENTENG Kwabena The membrane properties and firing characteristics of rat jaw-elevator motoneurones. 137

SWEIRY Jacob H. & BINDER Henry J. Active potassium absorption in rat distal colon. 155

INOUE Yoshihito, OIKE Masahiro, NAKAO Kazuhisa, KITAMURA Kenji & KURIYAMA Hirosi Endothelin augments unitary calcium channel currents on the smooth muscle cell membrane of guinea-pig portal vein. 171

TWYMAN Roy E., ROGERS Carl J. & MACDONALD Robert L. Intraburst kinetic properties of the $GABA_A$ receptor main conductance state of mouse spinal cord neurones in culture. 193

OKAZAKI Osamu, SUDA Norio, HONGO Kenichi, KONISHI Masato & KURIHARA Satoshi Modulation of Ca^{2+} transients and contractile properties by β-adrenoceptor stimulaton in ferret ventricular muscles. 221

NORDIN Magnus Sympathetic discharges in the human supraorbital nerve and their relation to sudo- and vasomotor responses. 241

FEDIDA D., SHIMONI Y. & GILES W.R. α-Adrenergic modulation of the transient outward current in rabbit atrial myocytes. 257

GEERS Cornelia & GROS Gerolf Effects of carbonic anhydrase inhibitors on contraction, intracellular pH and energy-rich phosphates of rat skeletal muscle. 279

GANDEVIA S.C. & KILBREATH S.L. Accuracy of weight estimation for weights lifted by proximal and distal muscles of the human upper limb. 299

BOKVIST Krister, RORSMAN Patrik & SMITH Paul A. Effects of external tetraethylammonium ions and quinine on delayed rectifying K^+ channels in mouse pancreatic β-cells. 311

BOKVIST Krister, RORSMAN Patrik & SMITH Paul A. Block of ATP-regulated and Ca^{2+}-activated K^+ channels in mouse pancreatic β-cells by external tetraethylammonium and quinine. 327

FRASER P.A. & DALLAS Annabel D. Measurement of filtration coefficient in single cerebral microvessels of the frog. With an Appendix by S. DAVIES & P.A. FRASER. 343

PANARIN V.A., KONDRATYEV V.A. & RAYEVSKY O.A. Some characteristics of the functioning of membrane receptor–channel complexes of *Limnaea stagnalis* neurones. 363

BAEV K.V., RUSIN K.I. & SAFRONOV B.V. Development of L-glutamate- and glycine-activated currents in spinal cord neurones during early chick embryogenesis. 381

KEATES A.C. & HANSON P.J. Regulation of mucus secretion by cells isolated from the rat gastric mucosa. 397

WRAY Susan The effects of metabolic inhibition on uterine metabolism and intracellular pH in the rat. 411

SITSAPESAN Rebecca & WILLIAMS Alan J. Mechanisms of caffeine activation of single calcium-release channels of sheep cardiac sarcoplasmic reticulum. 425

RAIMBACH Sarah J. & THOMAS A.L. Renin and angiotensin converting enzyme concentrations in the fetal and neonatal guinea-pig. 441

LANG R. J. The whole-cell Ca^{2+} channel current in single smooth muscle cells of the guinea-pig ureter. 453

CHARLTON B.G., NEAL D.E. & SIMMONS N.L. Vasoactive intestinal peptide stimulation of human renal adenylate cyclase *in vitro*. 475

AL-BARAZANJI K.A. & BALMENT R.J. The renal and vascular effects of central angiotensin II and atrial natriuretic factor in the anaesthetized rat. 485

LAMB G.D. & STEPHENSON D.G. Calcium release in skinned muscle fibres of the toad by transverse tubule depolarization or by direct stimulation. 495

LAMB G.D. & STEPHENSON D.G. Control of calcium release and the effect of ryanodine in skinned muscle fibres of the toad. 519

FRIEDMAN D.B., JENSEN F.B., MITCHELL J.H. & SECHER N.H. Heart rate and arterial blood pressure at the onset of static exercise in man with complete neural blockade. 543

AMÉDÉE T., BENHAM C.D., BOLTON T.B., BYRNE N.G. & LARGE W.A. Potassium, chloride and non-selective cation conductances opened by noradrenaline in rabbit ear artery cells. 551

FERRELL William R. & KHOSHBATEN Ali Responses of blood vessels in the rabbit knee to electrical stimulation of the joint capsule. 569

CHERKI-VAKIL Ronit & MEIRI Halina Acetylcholine release at identified nerve terminals in the organ-cultured frog neuromuscular preparation. 579

ALLEN T.G.J. & BURNSTOCK G. A voltage-clamp study of the electrophysiological characteristics of the intramural neurones of the rat trachea. 593

DAHAN Albert, BERKENBOSCH Aad, DEGOEDE Jacob, OLIEVIER Ida C.W. & BOVILL Jim G. On a pseudo-rebreathing technique to assess the ventilatory sensitivity to carbon dioxide in man. 615

ZEMKOVÁ Hana, VYSKOČIL František & EDWARDS Charles The effects of nerve terminal activity on non-quantal release of acetylcholine at the mouse neuromuscular junction. 631

BRENNER Eli & RAUSCHECKER Josef P. Centrifugal motion bias in the cat's lateral suprasylvian visual cortex is independent of early flow field exposure. 641

MEUNIER S., PENICAUD A., PIERROT-DESEILLIGNY E. & ROSSI A. Monosynaptic Ia excitation and recurrent inhibition from quadriceps to ankle flexors and extensors in man. 661

PROCEEDINGS OF THE PHYSIOLOGICAL SOCIETY

15–16 *December* 1990

King's College London Meeting

DEMONSTRATIONS

Abbott N. Joan, Hughes C.C.W., Greenwood J., Orsmond P., Ramlakhan Nerina & Revest Patricia A. Primary culture of rat brain capillary endothelial cells for physiological studies. 2*P*

Abbott N. Joan, Mitchell Gillian, Orsmond P., Todd Barbara & Ward K.J. An electrical method for monitoring ionic permeability of the nerve perineurium. 3*P*

Matthews H.R. Hexmail: an encoding program for sending binary files by electronic mail. 4*P*

Lee V.M. & Linden R.W.A. The effect of olfactory stimuli on the masticatory and gustatory salivary reflexes in humans. 5*P*

Sheriff C.-J., Pearson J.D. & Mann G.E. Characteristics of amino acid transporters in perfused endothelial cell microcarrier cultures: role of L-arginine in nitric oxide. 6*P*

Sleep J. Temperature control and exchange of the bathing solution for skinned muscle fibres 7*P*

Borges R. & Knight D.E. A method for monitoring by fluorescence microscopy the cortical cytoskeleton of leaky bovine chromaffin cells during exocytosis. 8*P*

COMMUNICATIONS

Colebatch J.G., Cunningham V.J., Deiber M.-P., Friston K.J., Frackowiak R.S.J. & Passingham R.E. Regional cerebral blood flow during unilateral arm and hand movements in human volunteers. 9*P*
